

Informal Educator-Scientist Collaborative Workshop

Seacoast Science Center, Rye NH June 2009

Scientist Peer Feedback Evaluations

Scientists' concept map presentations were evaluated by the other scientists and by the educators participating in the workshop. Participants were asked to rate each presentation according to four criteria: How well they addressed the "big picture" of their research, their overall Concept Map, their use of jargon and the clarity of their take home message.

The data presented above were collected by COSEE-Ocean Systems for research purposes in conjunction with the Seacoast Science Center Informal Educator-Scientist Collaborative Workshop (June 2009). These data or results should only be cited or used with the consent of COSEE-OS (please contact Annette deCharon at annette.decharon@maine.edu).
