

# ROLE Model (Research-based Online Learning Event)

## Webinar Series

July 28th, 2010 - 7pm (EST)

*Join us for free online presentations of current scientific research, and real-world examples of how other educators have used concept mapping in the classroom.*

### Featured scientists:

**Kjell Gundersen**

Biological Oceanographer  
University of Southern Mississippi

**Karen Orcutt**

Biological Oceanographer  
University of Southern Mississippi

*Researchers will share concept maps of their research on Gulf ecosystems, and the cascading effects of the recent oil spill on the marine environment.*

*In addition, two educators from Bangor High School who have effectively used concept mapping in their classrooms will share their experiences.*

- Learn interesting and relevant science content from researchers
- Talk with fellow educators about their own classroom experiences
- See a demonstration of the new version of the COSEE-OS Concept Map Builder

No cost or setup needed, all you need is a phone and an internet connection!
